## SellFolio Complete 4.0

SellFolio Complete is a software that can easily create interactive presentations. It is easy to use and it has a wizard like interface, that takes the user through some easy steps in creating great-looking presentations.

Also background music can be added an throughout the wizard a lot of options can be selected, such as colors, fonts, buttons, background, pixel size, and many more. The presentation can even be protected with a password and burned on a CD or promoted via email.

The trial version of this software has all the features, however the finished projects will display a message to purchase the full version.
